Memorandum Re: The Director's Trip

At a meeting called by the Director on 16 October 1956
to brief senior officials of the Agency on his recent trip
around the world the following persons were present:
Mr. Dulles. General Cabell, Messrs. Wisner, Amory, Kirkpatrick,
Angleton,
DUI first commented that he
by all our personnel and
had been most favorably impressed by all our personnel and
the fine jobs they were doing in their respective areas.
He noted some areas of operational weakness and some areas
where personnel strength was inadequate but that by and large
he had been highly pleased with his observations. He had
the following comments to make and action requests of various
persons present:
1) Noted that living conditions were very bad in some
areas and wanted to know if any of our legislation or
legislative proposals provided for accelerated retirement
and/or other henefits for such hardship posts. Mr. Kirkpatrick
stated that our proposed legislation provides for an accelerated
retirement in such cases but that at the present time we can
only attempt to give our personnel at hardship posts certain
breaks on annual leave or by informally cutting their tours
breaks on annual leave of by initiality outling their course
short. General Cabell noted that we must follow
DCI requested
Mr. Kirkpatrick to look into what action can be taken to
remedy this situation and to come up with proposals whereby we
on give our Chiefs of Station authority to at least permit
our people periodic vacations to mountain resorts or elsewhere
out of a hardship area at our expense, including wives and
children. ACTION: IG.
children. Action: 10.
3) Stated he had found in several instances that there
should be more advanced planning for replacements of key
managed in regions stations. He noted this was a verv
difficult problem but expressed the belief that planning in
some areas must take place one to two years in advance of the

cussion on this point and General Cabell suggested a group of "floating station chiefs" to be available as high level replacements in various areas and commented that ceiling problems should not be allowed to interfere with our efforts in this regard. ACTION: DD/P. 4) Stated that he planned to take up with the Secretary 6) Observed that in his travels he had many requests from Stations for senior SR men to be assigned. 8) Noted he had received information indicating that various stations had had unsatisfactory experiences with mechanical failures. This matter was discussed at some length and it was pointed out by COP that this is a problem which is constantly being worked upon. 9) Expressed belief that we were not making full use of material at our various stations. He requested Mr. Amony to look into the whole situation and see what might be done to improve this. ACTION: DD/I. 11) Suggested that the	manage on the bases and canages amport ballioneds a grant	S –
8) Noted he had received information indicating that various stations had had unsatisfactory experiences with mechanical failures.
